RANTICUE CONNECTION

Let me introduce my family's passion for the past three generations: My Cameo collection contains 9 different collections:

- 1. Gold Framed
- 2. Silver Sterling & Coin Silver Framed
- 3. Gold filled Gold Plated Gold Washed Framed Pinchbeck
- 4. Unmounted
- 5. Unmounted with Diamonds Cameos
- 6. Unmounted Vintage & Modern Cameos
- 7. Unmounted Coral & Angel Skin Cameos
- 8. Conch sea shells

9. Unmounted Lava & Mother Pearl

Cameos date back more than 5,000 years, with each cameo reflecting the culture and style of its time period. They were also used as government assets in the many countries around the world, and are considered a reliable investment, as prices of antique, high quality cameos are predicted by many collectors to continue to rise. Most of the items represented in my collection are from the end of the 19th to the beginning of the 20th centuries. I also have some cameos from as early as the 18th century as well as a few modern pieces. . The majority were carved from Carnelian and Sardonyx Sea Shell as well as Mother of Pearl Shell and corals. The collection also contains some hard stone cameos from agate, opal and bone. Using my background as a Graphic Artist and Art Historian, I established criteria which guided the creation of my cameo collection. The major criteria were craftsmanship and esthetics. Secondary criteria included historical value, followed by materials, including metal, stone, bone, etc. The collection also comes with a catalog which includes a full description and historical background of each piece, and was meticulously created as my family amassed this collection over the years. This well organized, beautifully created catalog will help the collectors to keep track of this unique and valuable asset, whose value will only increase with time as prices of quality antique cameos continue to rise in the present time

his catalog represents the UN-MOUNTED CAMEOS COLLECTION. from "The Antique Cameo Gallery Collection." This collection includes ONLY handcarved or hand-painted cameos. More than 99 % of this collection was created before 1948 - before the era of mass-produced, laser carved cameos. The major criteria for this collection included craftsmanship and esthetics, as well as historical value. This Collection contain a few purchased collections from around the World. The collection also comes with a catalog highlighting the artistry and history of each piece. According to cameo experts, the prices of cameos have doubled every 6-7 years and will continue to do so. The price of this collection is 3-4 times less than regular retail price. in order to sell it in one piece. Big percentage of this collection - Museum Quality

Investment in the Beauty with Profit
